

# Evolution Collection

This collection consists of two parts. The second piece is still in progress. It will be done by March 2023. We are born in different times and places. We are born unique.

We are nurtured in different circumstances. Our distinct backgrounds assure that no two individuals are the same in terms of appearance, opinion, value, or perspective.

Yet we are all in this together, each of us vibrating on different orbits around the same planet, just as the planets orbit around the sun.
